

Good morning,

See below for today's standings. Sounds like varied weather/wind here and there around the race course. Finishes start to really stack up the next 36 hours, it's going to get busy, we hope to see you all soon!

14/07/2017 15:00:

Weather & Comments:

Blue Flash: mostly cloudy, swell 1-3ft, tws 12, twd 033, press 1017.8. All is well onboard Blueflash. One puzzling

fact is that for better or worse we have yet to see a single squall.

- - - - -

Medusa: 57% overcast skies wind 12 kn @ 046 degrees, our barometer 1013mb
Sarah Palin came out on her porch and told us we better gybe before we hit Russia..

- - - - -

Prevail: Partly cloudy skies with wind at 10 kts at 55 degrees. Light winds throughout the day yesterday made for a difficult finish to what has otherwise been a quick race. Close racing with Sin Duda all afternoon and evening. After nearly 2000 miles of racing crossed less than 100 yards at approximately 0430 this morning. Great race in a great class!

- - - - -

Buona Sera: Sea 2', sky 40% ovrcst, TWD 14kts @ 31M 1020 mBar

- - - - -

Tropic Thunder: Sea and Sky Conditions: 3-6 ft partly cloudy with 8 squalls/rain showers in sight
TWD 023 TWS 14 Barometric 1018.8 Temp 72°F Humidity 70%
Optional: Incredibly frustrating light shifty winds, made tolerable by fun times of sharing and pranks. Then another awesome sunset and mostly clear night sky with more stars than many of us have seen in recent years, if not in our lifetimes. Several "Shooting Stars" were seen. North star was covered by some of the few clouds.
